Karen Sutton is the Associate Chief Information Officer for Information Technology within the Office of the Associate Administrator for Information Management and Chief Information Officer at the National Nuclear Security Administration (NNSA). In this position, Karen works to provide modernized, reliable, and secure IT services, solutions, and resources in order to achieve NNSA's mission. Ms. Sutton is currently overseeing the IT modernization effort across the NNSA enterprise.

Ms. Sutton supported the National Nuclear Security Administration as the Policy and Governance contractor lead. She began her federal service in 2015 within the Office of Policy and Governance as the lead for IT Governance. Ms. Sutton has a Bachelor of Science Degree in Business Administration and Professional Management, PMP, ITILv3, and is Six Sigma certified.

Ms. Sutton is a customer-focused and results-driven professional with over 20 years of experience leading people and project teams, implementing and overseeing technology programs and solutions. She possesses a broad, in-depth understanding of Information Technology and Cybersecurity.
