

Bill Pratt, Director of Strategic Technology Management in the Chief Technology Officer Directorate at DHS, is leading IT Acquisition and Systems Engineering Governance, Program Health Assessment, Program Support, and Digital Transformation at DHS.

Mr. Pratt coordinated the adoption of Agile/Incremental software development as the preferred process at DHS, achieving 100% Agile adoption rate for projects supporting major investments. Currently, his team is working to streamline the IT acquisition lifecycle, including plans to leverage SecDevOps, AI, and RPA.

Mr. Pratt has 40-years of experience in IT acquisition and systems engineering, supporting the federal government, DOD, and private industry.
