

## **Dr. Marc Abrams**

*Chief Technology Officer*

Harmonia

Dr. Marc Abrams is Harmonia's Chief Technology Officer. He helps customers navigate technology trends from his experience leading innovation projects in artificial intelligence and machine learning, application modernization and cloud adoption, blockchain, cybersecurity, data science and data lakes using big data technologies, DevSecOps automation, and human factors engineering. Dr. Abrams held previous positions with IBM Research, the U.S. Army, and Virginia Tech (tenured Associate Professor of Computer Science). He received his Ph.D. in Computer Science from the University of Maryland and was a post-doc at Stanford University.
