

Dr. Mark Flugge | CGI Federal

Mark Flugge serves as CGI Federal's Sustainability and Climate Change Lead. As a consultant and atmospheric scientist, Mark has more than 15 years of experience advising global organizations and federal agencies on greenhouse gas emissions, climate change, and biodiversity issues. He leads CGI Federal's sustainability and climate change advisory services practice, helping federal clients meet their sustainability commitments while responding and adapting to the impacts and risks of climate change. He also counsels CGI Federal on how to achieve their own net-zero targets and how to comply with sustainability requirements as a major government contractor. He holds a Master's degree in Chemistry and a Doctorate degree in Atmospheric Chemistry, both from the University of Oxford.
