

**Christine Horwege**

**Director, Consulting Expert | Consulting Applications, Solutions and Technology (CAST) | Emerging Technology Practice**

**Christine Horwege supports multiple agencies with Cybersecurity enterprise programs and emerging technology at CGI Federal, a wholly-owned U.S. operating subsidiary of CGI, Inc.**

Christine is a Director at CGI, supporting the federal government clients with expertise and insight related to cyber risk, security, and technology strategy. She partners with business unit and agency leaders to develop, implement, and measure Cybersecurity and Risk Management programs; acting as a trusted advisor and thought leader to enhance and execute security services.

In her more than 20 years of experience in information technology in the federal government and commercial space, she has supported zero trust, privacy and identity, authorization to operate, board reporting, system development and deployment, security operations, policy and risk assessments. She has over 15 years in technology enablement with a focus in Governance, Risk and Compliance big data solutions, not only as a consultant, but also as a Business Product Owner. She has held leadership and policy advisory roles deploying metrics, management reporting, technology portfolio, governance, and risk programs.

Ms. Horwege earned her Master's of Business Administration (MBA) from University of Maryland University College, and her Bachelor of Arts (BA) in Political Science from Dickinson College. She maintains a Certified Information System Security Professional (2017) and Six Sigma Black Belt (2005) certification, and received a Project Management Professional (2011).
